

New Source Review newspaper advertisements for construction permit applications, December 11, 2003. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: December 9, December 10, or December 11, 2003. Public notices are generally published every two weeks. The previous publication of public notices was November 25 – 27, 2003.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is CalsonicKansei North America with a mailing address of P.O. Box 350, Shelbyville, TN 37162. They seek to obtain an air contaminant permit (Division identification number: 02-0073-42/56865) for a Surface Coating Operation located at 305 Stanley Blvd, Shelbyville, TN 37160. This existing operation consists of a booth and associated equipment used to manually apply pigmented coatings to automobile condensers. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Bedford County “Shelbyville Times-Gazette”--published once on or before Thursday, December 11, 2003.

The applicant is Mueller Co. – Cleveland with a mailing address of 1401 Mueller Avenue, Chattanooga, TN 37406. They seek to obtain air contaminant permits (Division identification numbers: 06-0220-06/56898, 06-0220-07/56899, 06-0220-08/56900, and 06-0220-09/56901) for construction of a Coating and Molding Operation at 155 Enterprise Drive Southwest, Cleveland, TN 37111. This proposed operation would consist of a gas fired oven, a spray booth, seven (7) compression molding presses, and an encapsulation operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by these sources. Mr. R. Simmons is the assigned Division person.

For the Bradley County “Cleveland Daily Banner”--published once on or before Thursday, December 11, 2003.

The applicant is DTR TN - Tazewell with a mailing address of 199 Pottertown Road, Midway, TN 37809. They seek to obtain air contaminant permits (Division identification numbers: 13-0083-09/56777, 13-0083-10/56778, 13-0083-11/56779, and 13-0083-12/56780) for construction of Coating Operations at 150 Hester Lane, Tazewell, TN 37879. The proposed operations would consist of three (3) adhesive spray booths, two (2) paint spray booths, one paint dip machine and one adhesive roller coat machine. The process would consist of coating metal parts with adhesive, adhering a molded rubber part to the metal then coating the final product with paint. Steam heated ovens will be used to dry the intermediate and final products. An oxidation system will be required to control the organic vapors, which include volatile organic compounds and hazardous air pollutants. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. S. Simpson is the assigned Division person.

For the Claiborne County "Claiborne Progress"--published once on or before Thursday, December 11, 2003.

The applicant is Walker Die Casting, Inc. with a mailing address of 1125 Higgs Road, Lewisburg, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 59-0001-23/56838) for construction of a Wastewater Evaporator at the same address. This proposed operation would consist of an enclosed vessel and fuel burning equipment used to evaporate process wastewaters. Natural gas and fuel oil would be used as fuel for this source. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Marshall County "Lewisburg Tribune"--published once on or before Thursday, December 11, 2003.

The applicant is Oldcastle Precast, Inc. (dba Cloud Concrete Products) with a mailing address of P.O. Box 608, Auburn, WA 98071-0608. They seek to obtain an air contaminant permit (Division identification number: 75-0201-01/56912) to modify a Concrete Batch Plant located at 125 International Blvd., LaVergne, TN 37086. This existing operation consists of a dry powder cement silo, weigh batcher and associated equipment to produce central mix concrete. A fabric filter is used to control particulate (TSP) emissions. The requested modifications are to change the facility name to Oldcastle Precast, Inc., and to increase the production output to 26,000 cubic yards per year. There would be no physical construction. There would be an increase in regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

For the Rutherford County "Daily News Journal"--published on or before Thursday, December 11, 2003.
